### Notification service now available from Taxation and Revenue

The New Mexico Taxation and Revenue Department is now offering a notification service that alerts subscribers to new content available on the Department's website, [tax.newmexico.gov](http://tax.newmexico.gov).

Subscribers can sign up to receive text message or email alerts on new tax publications, such as FYIs and bulletins, decisions and orders from the Administrative Hearings Office, news releases, new or updated forms and updates to the gross receipts tax rate table. Other content notifications may be offered in the future based on demand.

"The Taxation and Revenue Department is committed to constant improvement in communication and to offering taxpayers choices in how to receive information from the Department," said Secretary of Taxation and Revenue Stephanie Schardin Clarke.

To sign up, visit the "News & Alerts" page at [tax.newmexico.gov](http://tax.newmexico.gov) and click on the Notification Service subscription link.
